

YH-X333 Datasheet v1.0

WiFi5 AC1200 Router

Gigabit dual-band WiFi5 high-performance home router, supporting up to 1200Mbps. Wireless dual-band concurrency and beamforming technology bring users a better experience.

Features

- Support Easy Mesh wireless network; Dual-band preference without mutual interference
- Intelligent speed limit, network distribution on demand;

Specifications

Size (LxWxH)	103mm*103mm*101mm	Weight	200g
Adapter	In: 180~240V AC, 50/60Hz Out: 12V @ 1A	Max. Power	<12W
Environmental Temperature	0~+40°C	Environmental Humidity	5%RH~95%RH non-coagulation
Network port	1xGE	User port	2xGE
Wireless Standards	5GHz 802.11ac/b/g/n 2.4GHz 802.11 b/g/n	Antenna	Built-in 2 dual-band omni antennas
Indication light	POWER/WAN/WIFI/WPS	Buttons	WPS/Reset
Protection level	IP20	Install	Indoor desk plat lying, or inbox near the door

Functions

Wireless Settings	Dual-band priority, Wireless time switch, WPS one-click access, Beamforming Signal conditioning, WiFi Qos function Bandwidth setting, Roaming function	Internet Security	Firewall, Anti-DoS Attacking Black &White list, Householder Control DMZ Host Machine
Mesh	Wireless network,Cable network, wireless、 cable mixed network	Internet Access Mode	Router mode, Bridge mode, Repeater mode
Wireless Security	WPA-PSK、 WPA2-PSK wireless encryption, Host network, Visitor network	IPv4&IPv6	IPv4, IPv6, IPv4 & IPv6
All Gigabit	1 gigabit WAN port ,2 gigabit LAN port	Dual-band	2.4G Hz, 5G Hz
